Depth	: 8.7 Meters
GWT	: 4599 T
DWT	: 7550 T

NORDMARIN LLC bagged its project from **VICTORIAM SHIP MANAGEMENT LLC** with the dry-docking repair jobs of a 115 meters **MT ATTICUS**. The vessel arrived in Dubai Maritime City on July 19,2023 and docked on the same day.

During the drydock period, **NORDMARIN LLC** executed a range of tasks, including hull and deck preparations, ballast tank blasting, painting, and steel renewals. Additionally, **NORDMARIN** was entrusted with various other responsibilities, such as pipeline renewals, motor overhauling, and the servicing of valves, pumps, and the propeller shaft. Notably, a total of 34 tons of steel were renewed in both the hull and tanks, all within the constraints of a restricted drydock timeframe.

MT ATTICUS was successfully undocked on August 14,2023. Subsequently, the vessel sailed on August 24,2023 with the client expressing complete satisfaction with the services provided by **NORDMARIN LLC**. **VICTORIAM SHIP MANAGEMENT LLC** departed, acknowledging and commending the high-quality services delivered by **NORDMARIN LLC**.
